

# Rescuing [charity]

Be part of the solution

Charity is foundational to the Christian faith.

**But what if we've been doing it wrong?**

What if we are **hurting** those we are trying to help?

**Rescuing Charity** is an educational series for individuals, churches and nonprofit organizations involved in serving under-resourced populations. Past events have covered:

- The biblical foundation for charity
- The downside of traditional methods for giving
- The importance of sustainable solutions

Attendance at prior events is not required for Event #3.

Join them and their **Beyond Borders** colleagues Meagan Silencieux and Coleen Hedglin for a powerful and interactive panel discussion.
